The premise for RentGlobe.com is two fold:

1. First, to help traveler's find accommodations and entertainment wherever their destination may be. "WhereToStay" and "WhatToDo" services provide the answers for the vacation or business traveler.

The potential for growth around the world for such services is tremendous. We put these services in one place: RentGlobe.com

RentGlobe.com is like a search engine for locating businesses, needed services and properties either to rent or to buy depending on your circumstances. You can search for these using other tools like Google and Yahoo search, but we eliminate all of the NON-RELEVANT information that these search engines often return to you. We save you time and give you better results for business and property information such as: "how many Italian restaurants are there in Puerto Vallarta" and where are they located. In many cases you will even be able to look over their current specials which they update weekly even before you go! "What are my choices of boats and areas to go fishing for the day?" The search results are relevant and specific for your potential customers, increasing the likely hood of them locating your property, product or service more quickly!

At RentGlobe.com, we offer 4 different area's of advertising which are sure to improve your business:

1. Real Estate Listings
2. Business Listings
3. Self Managed Web Content and Coupons Management
